

Magdeburger Wasserwirtschaftliche Hefte

Band 13 (2012)

Anne Becker

**Assessment of constructed wetlands in arid regions
with special regard to ecology and
multifunctionability**

D 34 (Diss. Univ. Kassel)

Shaker Verlag
Aachen 2012

Bibliographic information published by the Deutsche Nationalbibliothek

The Deutsche Nationalbibliothek lists this publication in the Deutsche Nationalbibliografie; detailed bibliographic data are available in the Internet at <http://dnb.d-nb.de>.

Zugl.: Kassel, Univ., Diss., 2011

Fachbereich Architektur, Stadtplanung, Landschaftsplanung

Verfasserin: Anne Becker

Tag der Disputation: 01.11.2011 in Witzenhausen

Gutachter: Prof. Dr. Ulrich Braukmann, Prof. Dr. Volker Lüderitz

Doktorgrad: Doktorin der Ingenieurwissenschaften (Dr.-Ing.)

Schriftenreihe „Magdeburger Wasserwirtschaftliche Hefte“

- Band 13: „Assessment of constructed wetlands in arid regions with special regard to ecology and multifunctionability“ -

Contents

Contents.....	III
List of Figures.....	VI
List of Tables.....	IX
Widmung.....	XI
Preliminary.....	XII
Eidesstattliche Erklärung.....	XIV
Danksagung.....	XV
Zusammenfassung.....	1
1 Einleitung.....	1
1.1 Hintergrund.....	3
2 Thesen.....	4
3 Untersuchungen und Ergebnisse.....	4
3.1 Untersuchungsgebiet und –objekte.....	4
3.2 Ökohydrologische Betrachtungen.....	6
3.3 Risikobewertung.....	8
3.4 Bewertung der Makrophyten.....	9
3.5 Bewertung der Biologie unter Einbeziehung des Designs.....	11
4 Zusammenfassung.....	13
5 Ausblick.....	18
Chapter 1: A systemic approach to assess the multifunctionability of free water surface constructed wetlands.....	21
1 Introduction.....	21
1.1 Background.....	22
1.2 Free water surface constructed wetlands.....	25
2 Not another wetland study – theses.....	29
Chapter 2: The study area and the study objects: the Imperial Valley, the Salton Sea, the New River, the Imperial Wetland and the Brawley Wetland.....	31
1 The catchment scale – the Imperial Valley.....	31
1.1 The climate.....	32
1.2 The Salton Sea.....	34
1.3 The New River.....	39
2 The local scale – the free water surface constructed wetlands.....	41

Chapter 3: Free water surface constructed wetlands in arid regions: Mass balance and impacts on the water budget	45
Abstract	45
1 Introduction.....	46
2 Material and methods.....	47
2.1 Real Evapotranspiration.....	47
2.2 Infiltration	49
2.3 Parameter Estimation by pumping tests.....	50
2.4 Chemical Analyses	50
2.5 Mass balance calculation	51
3 Results and discussion	51
3.1 Water losses	51
3.1.1 Evaporation and evapotranspiration.....	51
3.1.2 Infiltration	55
3.2 Water quality and mass balance.....	58
3.3 Optimization	63
3.4 Assessment for the catchment.....	68
4 Conclusion and Outlook	69
Chapter 4: Risk assessment of the free water surface constructed wetlands in the Imperial Valley, CA ...	71
Abstract	71
1 Introduction.....	72
2 Material and methods.....	74
2.1 Analyses.....	74
2.1.1 Trace and heavy metals.....	74
2.1.2 Chemical compounds.....	74
2.2 Standard toxicity tests.....	75
3 Results and discussion	75
3.1 Analyses.....	75
3.1.1 Trace and heavy metals.....	75
3.1.2 Chemical compounds.....	77
3.2 Standard toxicity tests.....	79
4 Conclusion	80
Chapter 5: The role of macrophytes in the free water surface constructed wetlands in the Imperial Valley, CA (USA).....	83
Abstract	83
1 Introduction.....	84
2 Material and methods.....	85
2.1 Parameters.....	85
2.1.1 Physico-chemical parameters.....	85
2.1.2 Biochemical oxygen demand (BOD)	85
2.1.3 Chlorophyll	85
2.1.4 Macrophytes.....	86
3 Results and Discussion	86
3.1 Physico-chemical parameters.....	86
3.2 Biochemical oxygen demand.....	88

3.3	Chlorophyll	88
3.4	Macrophytes.....	89
4	Conclusion	90
Chapter 6: Biological assessment with reference to the design of free water surface constructed wetlands and effects for the catchment.....		93
Abstract		93
1	Introduction.....	94
2	Material and methods.....	96
2.1	Flowrate	96
2.2	Purification.....	96
2.3	Wetland design	97
2.4	Benthic macroinvertebrates	97
2.5	Avifauna.....	98
3	Results and discussion	98
3.1	Flowrate	98
3.2	Purification.....	99
3.3	Wetland design	107
3.4	Benthic macroinvertebrates	109
3.5	Avifauna.....	110
3.6	Effects for the catchment	112
4	Conclusion	114
Chapter 7: Conclusion and outlook		115
1	Conclusion	115
2	Outlook	123
References		127
Appendix		137
Macroinvertebrates Imperial Wetland		137
Macroinvertebrates Brawley Wetland.....		138
Avifauna Imperial Wetland.....		139
Avifauna Brawley Wetland.....		146
Autorenverzeichnis.....		153
