Technologietransfer und industrielle Entwicklung in Schwellenländern unter strukturellem Wandel

Technology transfer and industrial development in emerging countries under structural change

Von der Graduate School of Excellence advanced Manufacturing Engineering GSaME der Universität Stuttgart zur Erlangung der Würde eines Doktor-Ingenieurs (Dr.-Ing.) genehmigte Abhandlung

vorgelegt von
Houssam Eddine Bessam
aus Blida

Hauptberichter: ord. Univ.-Prof. Dr. rer. nat. Dr. h. c. mult. Rainer. Gadow

Mitberichter : Prof. Dr. Thomas Ertl
Prof. Dr. Michael-Jörg Oesterle

Tag der mündlichen Prüfung: 25.04.2014

Institut für Fertigungstechnologie Keramischer Bauteile der Universität Stuttgart
2014

Forschungsberichte des Instituts für
Fertigungstechnologie keramischer Bauteile (IFKB)

Contents

Danksagung ..... **i**
Erweiterte Zusammenfassung ..... **iii**
Extended Abstract ..... **vi**
Résumé étendu ..... **ix**
Introduction **1**
Part I: state of the art for development strategies and success factors **7**
1 Development strategies **7**
1.1 Underdevelopment and its Symptoms 7
1.2 Development Strategies 7
1.3 Industrialization and Industrialization Strategies 10
1.4 Macro economical foundations of international cooperation 12
1.5 Technology transfer as a mean of industrialization 18
2 Technology transfer parameters **19**
2.1 Definition of international technology transfer– no single definition 19
2.2 Importance of the technology transfer 21
2.3 Conceptual aspects of technology and knowledge transfer 22
2.4 Factors influencing technology transfer (success/failure factors) 26
2.5 Human and social dimension of the technology transfer 36
2.6 Critical review of existing models of technology transfer 41
3 Limitations of the literature of technology transfer **53**
4 Descriptive modeling and quality tools **56**
4.1 Three-Phase model 56
4.2 Role of Total Quality Management in technology transfer 59
Part II: experimental work and main contributions **65**
5 Data collection (questionnaire/interviews) and description **65**
5.1 Description of the questionnaire and objective 66
5.2 Description of the gathered data (descriptive analysis) 69

5.3 Validation of the influencing factors 76
5.4 Correlation 79
5.5 Successful and unsuccessful stories about technology transfer from Algeria and Egypt .. 83
6 Qualitative analysis 87
6.1 Three-Phase-Model application 88
6.2 Qualitative analysis of the interviews 88
7 Quantitative analysis 93
7.1 Principal component analysis 93
7.2 Traditional approaches (regression analysis) 96
7.3 Multiple linear regression modeling 98
7.4 Non linear regressions (polynomial regressions) 107
7.5 Limit of the traditional approaches 114
7.6 Artificial intelligence methods analysis 115
7.7 Contribution of all methods (dominant variables) 129
8 Optimization of conflicting success models 131
8.1 Introduction to the multiobjective optimization 131
8.2 Solving a multiobjective optimization problem 132
9 Design of the methodology for ITT and validation 137
9.1 Importance a methodology for the assessment and monitoring of technology transfer 137
9.2 Description of the proposed methodology 138
9.3 Software implementation of the assessment and monitory methodology 141
9.4 Application of the developed methodology on case studies from Algeria 146
Conclusions and perspectives 165
Bibliography 173
